*Also available with these precision Dance
Wheels of rock hard maple. Aluminum
housing contains two sets of self con-
tained ground and polished bearings of
finest steel, rubber cushion and retainer
fitted and locked in.*

The Perfect Skate for Perfect Dancing

Mr. Perry Rawson says, "This type of skate is the skate for dancing." Being an authority on skate dancing, he should know. These special features of construction will add to your artistry.

1. 10° Action with light sole-fitted plate.
2. Soft red rubbers with flexible, easy action.
3. Malleable iron trucks with non-bind action.
4. Overall width of axle 3.75 inches.
5. One-inch tread dance wheels impregnated for longer wear and better traction.
6. Axle nuts set below the surface of the wheels.

*Ask your Rink Manager to show you
this beautiful new Dance Skating
Outfit, or write us.*

New Skate Dance Book Due Soon

The RSROA is now printing a large quantity of new books on Skate Dancing, subject of the new issue being the revised tests and dances as published in Skating News in the Summer edition. This new issue should be ready during early November for general use and will be called "1951 Supplement to Roller Skate Dancing."

The issue covers all of the latest dance information as well as the new steps which are now being taught at most RSROA Rinks. The 52-page issue is priced at \$1.00 per copy. The size of this issue is 5½ by 8½ inches and very fine, heavy grade glossy book paper is being used.

There has already been very heavy demand for this edition, the orders being set aside at the RSROA Office in preparation for the arrival of the new issue. It will also be on sale at most RSROA Rinks shortly after its release.

The book will feature, among many other things, eighteen new diagrams of popular dances and should meet instant approval of the public.

"Supplement to Roller Skate Dancing" is to be used in conjunction with the present issue of "Roller Skate Dancing" which will continue to be released for some months ahead. Every skater in the RSROA will want to bring their library up to date with the new issue so order yours ahead of time and receive it with the first mailing. The price again, \$1.00 per copy postpaid.

RSROA Office Moves to New Quarters

After thirteen years in the office space on the second floor of the Arena Gardens building, Detroit, the RSROA Offices have made their first expansion and have moved to the first floor where larger and better suited space was available. The new space allows better handling of Skating News for one thing—no stairs to be negotiated during the handling of the ten editions each season.

Publications, tests and all business can now be taken care of more easily in the new offices. However, the address remains the same as in the past, the Post Office Box 857 will be continued at Detroit 31, Mich. The office telephone will also remain as Trinity 2-5623.

RINKS AND CLUBS, PLAN YOUR 1951 SHOW NOW

The fall season in roller skating is well under way. This is the time for all roller skating clubs and the rinks to begin work on their shows for the winter season if they are to be fully successful. In the past, all too often, shows have been planned at Christmas for presentation during the middle of January and worse, shows have been presented during the actual competition season, making the pleasure of show work just plain WORK. So this hint is being given to all at this time. Plan your show now. Don't let time slip past until mid-season is right at your door. Make your 1951 show the smoothest, best planned, best operated and most successful ever. Good luck!

This is the season of the year when the applications for new Judges Panels among the RSROA rinks are piling in at a high rate. Very considerable interest has been shown this year with a grand total of almost 150 panels now. Speed Skating track applications have been arriving, too, at a high rate. Any RSROA rink may have this service without cost. If you do not yet have an official speed skating track at your rink—write for it today.

From the PRESIDENT'S NOTEBOOK

TO THE SKATERS:

The first returns are coming in on the new test set-up and they are mostly good. So far the Kenny Chase Waltz, the Imperial Waltz and the Adams Polka are getting the most votes of confidence. The Highland Schottische comes in for the most criticism. Now that the SRSTA Notes are out and in everyone's hands, I would like to hear from more of you on how you like the dances.

Start now working on the dance that YOU are going to submit for one of the four PRIZE DANCES for next year. The sooner we have this material, the better chance we will have to judge it. The committee who will judge these dances for the SRSTA are as follows:

Melvin Umbach, Boston, Mass.
Betty Lytle, Newark, N.J.
Millie Wilkins, New York, N.Y.
Irene Boyer, Chattanooga, Tenn.
George Bergin, Jacksonville, Fla.
Frank Porter, Pueblo, Colo.
Irene Seifert, Omaha, Nebr.
Louis Carlson, Culver City, Calif.
Elmer Ringeisen, San Francisco, Calif.
Dale Pritchard, Portland, Ore.
Pat Pattison, Redondo, Wash.

The committee will vote on each dance submitted for the test in which they believe it would be best suited. The majority opinion will be final.

You may suggest the test (Bronze, Silver Bar, Silver Medal or Gold Medal) for which you think your dance would best qualify or you may leave it to the committee.

* * *

TO THE OPERATORS:

Are you developing a good mailing list of your skaters? There is no finer way to keep your customers informed than by a good mailing list. I will write more about it in my monthly letter.

* * *

TO THE TEACHERS:

Don't get too technical . . . especially with the general public. While there is a widespread group of skaters who are interested in techniques, there is a considerable group that just want to skate for the fun and sociability of the sport. Let them know they can enjoy roller skating without "putting their little foot" in exactly the right place.

Try to keep in mind, "There is no use making it difficult—with a little more effort, you can make it impossible."

—FRED J. BERGIN.

Welcome!

RSROA Welcomes Two New Members

Two brand-new rinks are added to the RSROA roster this month with the acceptance into membership of:

T. T. JOHNSON and H. L. GARLOCK,
Rocket Skating Club, 815 North Virginia Ave., Oklahoma City, Okla.

JAMES PRICE and JOHN S. RANDO,
Wal-Lex Rollerway, 814 Lexington St., Waltham, Mass.

Announcing

THE 1951 "PRIZE" SKATE DANCE CONTEST

One of the features of the recent revision of the RSROA Skate Dance Tests was the plan to conduct a "Prize Skate Dance Contest" in Skating News each season during the months of November, December, January and February.

The contest is open to all—every skater—professional—rink operator—for the purpose of selecting new dances in the "prize" category of the dance tests each year.

The contest is to be judged by a special committee to be named by the President and their selections are to be final. ALL entries are to be sent in final form and must include diagram and notes. ALL entries become the property of the RSROA. None will be returned.

The prize will consist of gold award buttons or pins of special nature and will indicate the year of the award. The awards will be announced at the annual RSROA-SRSTA Professional Conference.

The dances as submitted need not be new material. They may be existing dances. They need not be submitted by the author. No special consideration will be paid to either old, established dances over new material or vice versa. No cash awards will be made in any case and no compensation for and publication rights will be made.

Each entry in this contest must be accompanied by an entry blank which may be clipped from Skating News. These will be published in the November, December and January editions only. Persons entering this contest may enter as many dances as they wish but each must be accompanied by an entry blank. No dance entry will be accepted if postmarked prior to November 1, 1950, and none will be accepted if postmarked after February 28, 1951. The persons entering may name the test for which they are submitting their dance or they may leave such selection to the committee.

Watch for more information on this big contest in the November edition of Skating News.

All Judges Panels

Information regarding the changed tests and the new dances have been mailed to every active Judges Panel and with this information has been mailed a panel report and roster sheet. The continuation of the Commissions of the amateur judges depends on the prompt return of this form so be careful to fill it out and return it at once upon its receipt.

Pending the compulsory use of the new test schedule, the activity of the present judges depends on the approval of the Panel Officers and the Panel Advisor. They may officiate at new tests after having been oked locally.

We also want to make plain the fact that amateurs, upon turning pro, do not carry their commissions into the pro status. It requires registration as a professional and also new application for commissions which are handled thru the SRSTA committee. Please be very careful not to officiate at tests if your status has recently changed and you have not yet received your professional commissions.

NEW HAVEN (11) CONN. **STUDIOS**

What? Another Queen? Yes, and ohhh brother! Pretty Doris Hinds, 16, of Maryville, California, is crowned by Kess Hudgens, operator of the College View Roller Palace last spring.

Mickey (Earl) Dunn was just in the office, visiting from Mt. Clemens, Michigan, where he told us he had lost over sixty young men skaters from that rink alone, they being taken into the Armed forces. Paramount in his interest was Mickey Junior who has already left for the Coast Guard. Mickey (Jr.'s) fiancée, Mary Dunn, will help the boss to carry on with the teaching.

1950 Washington State Roller Skating Queen, Merrideth Goddard of the W. T. Brown D & F Club at Southgate Rollerdom, Seattle, was crowned at the state meet by Mr. Bowsher, superintendent of the Bellingham, Wash., school system.

Do you have your 1951 RSROA Amateur Card? If not, why not? Most RSROA rinks have their equipment to issue cards without delay. **GET YOURS NOW!** Ask your RSROA Rink Operator or Pro.

DUKE, THE SKATING CHIMPANZEE

Duke, the skating chimpanzee, has been a special feature at the Arena Roller Rink in Tulsa. Duke, in his two visits to the Arena, has made quite a hit with Arena patrons, all of whom are always anxious to skate with him.

Duke is trained by Hugh Davis, curator of Mohawk Zoo in Tulsa, who has also taught him to ride a tricycle.

The skating monk has received a great deal of publicity in Tulsa and throughout the country — probably because of his winsome ways and the fact that it IS a little unusual to see a monkey skating casually around a roller rink . . . like people . . . but not vice-versa.

**HAVE YOU APPLIED FOR YOUR AMATEUR
CARD? IF NOT, DO IT NOW!**

NEW MOVIE:

"Fireball" Presents Mickey Rooney and Pat O'Brien in Roller "Derby" Story

First of the American movie companies to hit upon a suitable roller skating theme for a 1950 release was 20th-Century-Fox, who feature Hollywood's number one roller skater, Mickey Rooney, along with Pat O'Brien (again in the cloth) and a good supporting cast of newcomers to the screen.

Built around the story of the rise to roller fame of a small kid-around-the-rinks, the picture carries interest and thrills right thru to its end. Beverly Tyler, new to pictures but pleasant and attractive, provides the "love interest."

That the Roller Derby really struck home to the American public is evidenced by its position as a picture theme. Television has brought this exciting game right into the homes of most persons with TV. In finding a roller skating sport in this category is not surprising since for years enterprising rink men and the RSROA itself has been trying hard to "sell" that same idea. To see the point, watch the great interest of the crowd at every roller event—regardless of what it is. And watch the interest of the audience when you see "Fireball" at your favorite movie house. We know you will like it.

The Boys Are Hanging Up Their Skates Again

Naturally we want to see duty performed by all—but there is sadness in many rinks where the top rate skaters and instructors are rapidly being decimated in the male ranks.

The first real shock came shortly following the American Championships when we learned that five of the top men at the Southgate Roller-drome in Seattle had gone into service together. As we understand it—the Marine Reserve—Manager Roy Brown, Professional Cliff Schattengerk, New Pro Skipper Oakes and two more of their staff men. The same condition must exist elsewhere in the RSROA rinks, too—but we have not been informed as to just who has left for service.

Not long ago Ted Rosdahl, the Chicago Champion, dropped in at the RSROA Office and in leaving bid us farewell since he had received his "greetings." We would like to acknowledge these men (and women, too) who are leaving to join the Armed Forces. Will you just drop us a line to the RSROA Office and let us know when and who is leaving? We know that many

skaters would like to "keep tabs" on friends who are going into service.

The Empire Roller-drome in Brooklyn, New York, has been officially taken over by Michael Durante who was an associate in the firm which formerly operated this big rink. The rink shut down, supposedly permanently last spring but after a financial settlement, Mr. Durante and his new staff went to work and the entire rink was refinished and refurbished. Al and Dorothy Coupe have turned pro to teach there and on September 28 the new venture was launched. Judges Panel 29 also reactivated at once. Louise Rush, organist, who played for the 1946 U. S. Championships at New York City, has taken over the console at Empire.

Organist Leonard LaJeunesse and the Missus, Nina, who is an instructress at the Mount Clemens (Mich.) Arena, had an increase in the family on the part of Theresa Ann, who arrived on June 5.

Dorothy Louray Cowley, 15, of Phoenix, Arizona, is a new star on the roller skating horizon since her recent exploits at the Southwestern Regional contest at San Diego, Calif., where she copped first place in both the ladies novice figure championships and the ladies novice free style, and more recently at Denver, where she placed second in the American ladies novice figure competition. She's shown here being given a last minute boost by Allen Mathews (left) and Robert Sloane, members of the Phoenix Chamber of Commerce "Thunderbirds," her sponsors at the Denver meet.

Believing you can't go wrong on a young person who has already shown championship calibre, the Thunderbirds, special events organization composed of young men of the Phoenix Chamber of Commerce, sponsored Dorothy in her Denver try.

In Denver she attracted lots of attention for her skating, of course, but her distinctive uniform, modeled after those worn by her sponsors who, in turn, modeled their regalia after Hopi Indian attire, caused much comment. It wasn't long before the vast crowd knew her as "Phoenix" — "the gal from Arizona."

Dorothy's mother, Mrs. Ray Cowley, who has shown a keen interest in her daughter's ambition to become a peerless skater, says that Dorothy's proficiency can be attributed, in part, to the fact that she is able to practice every day.

That's because the weather is nice every day (practically) in Phoenix, winter or summer. Because there is no regulation rink at the moment in Phoenix—the last one was transformed recently to a gigantic super market — Dorothy's parents built a concrete slab in their backyard.

As a result, Dorothy gets practice at odd moments as do members of the Phoenix Figure and Dance Club, an organization of youthful skating enthusiasts, whose instructors are Al Swabb and Laura Cowley.

Claude Whitehurst . . . "Wonder Boy" of Roller Skating. A native of Norfolk, Virginia, and always skating under the colors of the Mercury R.S.C. This year, at 10, he was again an outstanding champion. But look — at seven: 7 medals; at eight, 7 medals; at nine, 7 medals (five of these were U.S. and American medals, too). Now he moves into Junior Class and we watch closely for his second step toward eventual Senior titles.

Flint Park Rollercade, Flint, Mich., again held a very successful show for the benefit of the club travel fund, their RSROA Night and the Polio Fund in late spring, when many members of the cast were given their test awards by Operator Earl King. The Flint shows have been well known for their excellence and have attracted much attention — even from the Governor of Michigan last season. Now Earl and his wife have moved to Detroit where they are associated with Fred A. Martin in the Arena Gardens operation and the Rollercade has been turned over to the management of their son-in-law and daughter, Jim and Eleanor McGrath.

Roller Show

(Top Left)

An unusual shot for newspaper work. Mel Miller plays as the girls are rehearsing.

(Top Right)

Mr. and Miss Scholle planning with Don Brown.

(Center Right)

Veterans at 2½. Karen Matecki and Jimmie Goss took part in their **SECOND** show this year.

(Lower Left)

"And tie it right" — Betty Willey, Marian Twinen, Betty Lou Rance.

(Lower Right)

Gloria Matecki and Dick Bourquin did a dance specialty.

"CAN IT BE DONE?"

Definitely "Yes." They say so at Canton, Ohio. These pictures made up a page in the local paper **BEFORE** the show at Skateland Roller Club. Wm. Scholle, Miss May Scholle and Mel Miller, organist, were right there with Don Brown, the producer. 106 skaters took part in the two-hour event, the high point in the whole season's program.

Mr. Scholle has had some difficult problems operating at the fairgrounds. Local people used to be prejudiced against roller skating, but not any more! Now they want to know when the next show will be put on!

YOUR rink operator knows "UNION HARDWARE" as the big name in roller skates. He will tell you why the Union Hardware rink skate is the world's finest. No protruding rivets. Wearing parts hardened and tempered. Oversize king pin and cushion. Foot plate and brace are one solid piece of virgin aluminum alloy.

UNION
HARDWARE COMPANY
Torrington, Connecticut

Little Olga Lee Simmons, 10, is the first Louisiana resident to hold the Silver Dance Medal. On July 22nd, at a test held in Koppelman's Skateland, New Orleans, La., she successfully met the requirements of the RSROA for the Bronze and Silver Dance, and the Junior and Number One Figures. She had acquired her Dance Bar in Memphis, Tenn., on May 13, 1950.

Olga Lee has been skating for a little over one year and has been receiving professional instructions for only six months of that time. She is believed by her instructor, Arlis Snyder, to be one of the most potential skaters he has ever trained. He predicts a great future in skating for Skateland's little star.

Clevelanders will remember the Gaydos'—Albert and Betty—who have been skating for a number of years in shows and competition there. Now meet the newest skating member of the Gaydos family—Elizabeth Ida—and it seems that mother has some definite ideas about her taking up skating pretty soon. In fact, she may even be skating now since we have had this photo for a couple of months. Roller skating is surely getting to be more and more of a family sport.

Beautiful . . . very outstanding . . . was the comment for the style show as presented by the clubs at the Arena in Tulsa on August 15. Only one exhibition number was included and it closed the show with a pairs by Edith Barnes and Lewis Wantland, Jr. The cast included Jack and Bill Smith, Eddie Terry, Bill Baldwin, Cheree Vaughan, Sonya Lee Mitchell, Ronnie Davis, Guy Irvine, Irene Smith, Beverly Moore, Sondra Grass, Dorothy Wakeland, and Caroline Findley. Above are Willene Kahn, Joe Le Donne and Genevieve Richards. The show was produced and directed by Dorothy Mitchell Allen. The styles shown were provided by Streets Clothiers of Tulsa.

Lorraine McLaughlin, at twenty-seven months, is a veteran of over six months on the rollers. She is one of the dozen tiny tikes under four years old who now skate at Mammoth Garden.

The Denver Post, Denver's largest daily paper, recently featured pictures of Lorraine and three other Junior-Juveniles.

Lorraine should come by skating naturally . . . her dad, Ed McLaughlin, is a former professional who "graduated" into doing promotion and publicity for Mammoth Garden after teaching in Philadelphia, New Jersey and Denver. Lorraine's mother is also a skater who spends her spare time making matching skirts for Lorraine and herself.

Skating News

FASHIONS IN THE SKATING WORLD

"Mix and Match"

By MARGARET J. SANDERS
(The Skating Artist)

As all of you who read the fashion advertisement and the style magazines may observe, Mix and Match is not my own original title. No, it seems to be THE up-to-the-minute 1950 slogan. But, lo, when I went through my latest sketchbooks of skaters in action, I found exactly the right illustrations to go with the slogan, geared, my dear readers, to the skating world of fashion!

For the MIX, take a pair of little girl skaters. By the way, have you ever thought how pleasant it is for two small chums to work out a pair program together? It gives them a chance to do so many interesting, maybe not too difficult moves, and is the best possible training in teamwork. When these two skated a Sunday exhibition, they wore identical dresses of a soft silky fabric in those new chartreuse and green colors; the blonde having the chartreuse dress with the green Robinhood collar; the brunette wearing the same colors reversed.

For the MATCH, take this utterly charming mother and daughter outfit sketched this summer. Made of washable, uncrushable "picoley" fabric, in a gorgeous turquoise, the dress was cut in a 6-gore princess pattern. The deep yoke and pert round collar were of gleaming white. On blonde and redhead, they were simply perfect, and what an idea!

But, upon second thought, not such an unusual idea, after all. In what other sport—swimming being the only one I can think of off-hand, can the whole family, young and old, participate? Right here in the Skating News Magazine, you often see skating families merrily posing together on their roller skates. Often, too, you see a photo of three generations, all on skates. Keep this in mind when you are considering the value of skating. A SPORT FOR THE WHOLE FAMILY TO ENJOY TOGETHER.

WANTED —

Professional skating teachers, prefer man and wife. State experience, give references, salary expected, in first letter.

BAY RIDGE ROLLER SKATING RINK
641 Sixty-Second Street
Brooklyn 20, New York, N. Y.

The three young ladies above are skaters from another land. In fact, just as far away from our local scene that you can travel. They can be found on the rink at Launceston, Tasmania (Tasmania is an island off the south coast of Australia). New Zealanders, who are holding their championships this month, anticipated participation with Australian amateurs in special events. Here's luck to all!

FIRST TESTS AT NEW ORLEANS

On July 21, 22 and 23, skating tests were held at the Koppelman's Skateland, New Orleans, La., and this was the first time tests of this type were ever held in Louisiana. They were held under the direction of Arlis Snyder, Professional Instructor, and judges were Paul Poettgen, St. Louis, Robert Irwin, Chicago, John P. Rodger, Decatur, Ill., Bert Widd, Chicago, and Jamiel Hassen, San Francisco.

The following skaters successfully met RSROA requirements for the tests indicated:

DANCE BAR: Sidney H. Drouant, Suzanne Newman, Genevieve Barbier, Jean Fazzio, Mrs. Flora Mae Atchley, Sybil Atchley, Eleonore Delery, Marilyn Augustine, Marlene Augustine, Bettie Menge, Shirley Rooney, Betty Lilly, Helen Moran, Beverly Young, J. Soniat-Duffossat, Barbara Cook, Donald Scott, Betty Sparks, Elvira Cavani, Marion Prescott, Faye Ann Fischer, Henry Bruhn, Mrs. Frances Barton, Huberta I. Barton, Evangelista J. Barba, Orville J. Callahan, Georgia Lawrence, Geraldine Lawrence, William Mobley, John Spataro, Alice Rambow, Shirley Rambow, Barbara Durr, Robert Harvey, Marie Hassen and Lt. Jamiel Hassen.

BRONZE DANCE: Suzanne Newman, Olga Lee Simmons, Mille F. Wolfe, Helen Moran, Genevieve Barbier, Betty Sparks, Bettie Menge, Gerald Joubert, Marion Prescott, Betty Pollard, Shirley Rooney, Alice Rambow, Shirley Rambow, Georgia Lawrence, Geraldine Lawrence, Frances Barton, John Spataro, Orville J. Callahan and William Mobley.

SILVER DANCE: Olga Lee Simmons, Marie Hassen and Lt. Jamiel Hassen.

JUNIOR FIGURES: Patricia A. Lowery, Olga Lee Simmons, Betty Sparks, James Soniat-Duffossat, Marion Prescott, Sybil Atchley, Bettie Menge, Shirley Rooney, Eleonore Delery, Barbara Durr, Shirley Rambow, and Alice Rambow.

BRONZE FIGURES: Olga Lee Simmons, Patricia A. Lowery and Marion Prescott.

The following skaters passed tests at Memphis, Tenn., on May 13, 1950, thus qualifying them to take more advanced tests at New Orleans.

DANCE BAR: Gerald Joubert, Betty Pollard, Alden Talbot, Mille F. Wolfe, Olga Lee Simmons and Patricia A. Lowery.

BRONZE DANCE: Patricia A. Lowery.

Since March when Skateland first appointed a professional to instruct New Orleans skaters in International Style Skate Dancing and Figure Skating some ninety tests have been taken by skaters from New Orleans and from Biloxi, Mississippi. Of these, only ten have failed to pass, and five of those repeated the examination and have qualified for awards. All told, New Orleans now has thirty-two Dance Bars, fourteen Bronze Dance Medalists and one Silver Dance Medalist, twelve Junior Figure Bars, and three Bronze Figure Medalists. New Orleans is the first city in the delta region to have a Silver Medalist. The nearest other medalists were to be found in Tennessee.

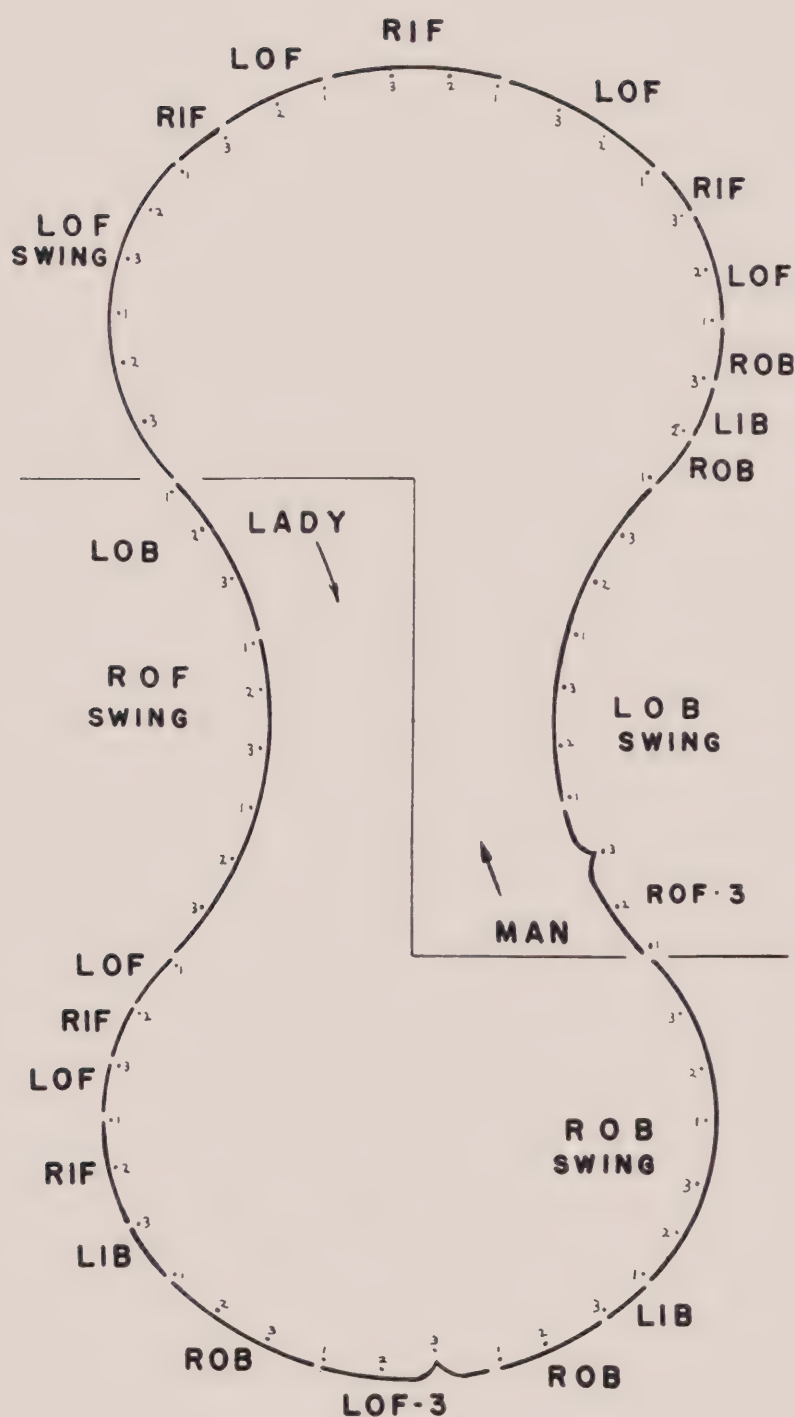

Not too long ago, the stars of "Ice Vogues" were guests at the Orlando, Fla., Coliseum at a skating party given by the Rhythm Rollers D & F. Club. Here, with Joe Werner and Jack Barbre of the Coliseum staff, are Ilona Vail, "Flip & Flap," Tony Le Mac, Donna Jean Popisil, George Kromser and Chet Nelson.

PROFICIENCY TESTS

Following are hundreds of names of skaters who have successfully passed RSROA Roller Skating Proficiency Tests, those on these pages being filed at the RSROA Office during the month of July and August 1950. All of these persons will or have already received medals or bars in recognition of their achievement in the sport of Roller Skating. The coded numbers and letters indicate the test passed and the branch of the sport in which it was passed. Thus: D—Dance; F—Figures; S—Speed; 1—First or bronze test; 2—Second test (in dance and speed a silver medal); 3—Gold test in dance and speed. There being 8 numbered tests in figures, 4—Silver medal, 8—Gold. Why not improve your skating if you are "not present" on this page? Improve until you, too, are a test medalist—maybe some day you will hold even the Gold Medal!

MacFADDEN SKATES

By E. M. LOGAN

World famous Bernarr MacFadden, physical culturist, publisher, made good a promise to "roller skate on his 82nd birthday" when the silver thatched octogenarian appeared at a local rink in Dansville, N. Y., recently. MacFadden's Physical Culture Hotel is located there.

After a 15-minute brisk skate with the crowd, Mr. MacFadden teamed up with little three-year-old Andrea Lynn Purdy to show the crowd that he had learned to skate during the previous ten days — never having skated previously.

Said the canny Mr. MacFadden, he could recommend the sport of Roller Skating as "good exercise and a health builder, if you want to keep fit, healthy and vital." He added, "I don't have to look back to the days when I was 20, 30 or 40 years old—I've got my youth and strength right now."

Long-time ice and roller professional Elsbeth Muller stopped in at the RSROA Office not long ago all a-banded and BOILING! It seems that she was the "innocent bystander" in a knock down by a couple who had skated the inside lobe of a dance far across the center of the rink. We might point out to the dancers that it is rarely necessary to cross the center line of the rink and when doing so, it is vital that persons on their own side of the rink be given the right of way. Better plan to do a job of studying patterns on the "wide" dances — what say?

'51 SKATING VANITIES OPENS AT QUEBEC CITY, CANADA

Lon Hall of "Skating Vanities" reports that the new 1951 show by that name is on its way after a very successful opening in Canada. At the new 13,000 seat Coliseum in Quebec City, standing room was sold out for the 10-day run.

Added to the already star-studded cast are Jimmy Alex of Dayton, Bob Quick of Detroit, Patricia Cavanaugh and Johnny Williams of Columbus, O., Paul Bauman of New York City and Irene Frankoff of Omaha.

The show is reviewed as being an improvement on even last year's outstanding presentation. Quebec reviews told readers, "It is even more than what the advance publicity claims it to be—and it's as clean as the sparkling roller skates!" Their 1950-51 schedule follows:

Quebec, ColiseumSept. 1 thru 10
 Montreal, The ForumSept. 13 thru 17
 Sioux City, Municipal Aud.Sept. 20 thru 24
 Des Moines, K.R.N.T.Sept. 26 thru Oct. 1

TheaterSept. 26 thru Oct. 1
 Springfield, Ill., State Armory.....Oct. 3 thru 8
 St. Paul, St. Paul Aud.Oct. 11 thru 16
 Milwaukee, AuditoriumOct. 20 thru 29
 Memphis, Ellis Aud.Oct. 31 thru Nov. 5
 Chattanooga, Tenn., Auditorium, Nov. 7 thru 12

Springfield, Mo., Shrine Mosque, Nov. 14 thru 19
 Oklahoma City, Municipal Aud., Nov. 21 thru 26
 Houston, ColiseumNov. 28 thru Dec. 3
 Kansas City, AuditoriumDec. 6 thru 10
 Wichita, The ForumDec. 12 thru 17
 Xmas VacationDec. 18 thru 27
 Denver, AuditoriumDec. 28 thru Jan. 1
 San Jose, Municipal Aud.Jan. 4 thru 9
 Oakland, AuditoriumJan. 10 thru 14
 Sacramento, AuditoriumJan. 15 thru 21
 Salt Lake City, Fairgrounds.....Jan. 24 thru 28
 Flint, Mich., I.M.A. Aud.Jan. 30 thru Feb. 4
 Toledo, Sports ArenaFeb. 6 thru 11
 White Plains, Westchester County, Center BuildingFeb. 13 thru 18

Sailing for four months European Tour.

Pretty Dorothea Allen, 18, of the Skateland Skating Club, San Francisco, did pretty well in 1950: Represented California in the "Skating Queen of America" contest; won novice dance State and Regional titles with partner Bill Koettenger; took 2nd in American Championships; State and Regional Champion in Intermediate Figures and Free Skating; Second in Novice Pairs in State and Region with Clayton Briggs; won "Showmanship" Trophy for outstanding performance in California. NICE WORK!

Miss Pichette with Joan Teed

Ruth Clunan, outstanding Junior Figure Competitor with Leo Bradshaw—together they are 1950 Massachusetts Junior Dance Champs.

"Debutantes"—Nancy Flood and Carol Wheeler

Robert LaVenture

TEST AWARDS, SHOW AT FITCHBURG, MASS.

The great question facing many rinks and skaters: "can skaters from a small rink succeed?"

Let's answer that emphatically — yes! Time and again within the RSROA the small rink has made its presence felt by the excellence of its skaters and their clubs.

A good example of the small rink may be found in Past-President LaVenture's Whalom Park Roller Skating Rink, located in Fitchburg. (Let's also point out that Fitchburg isn't a large town and it's not located in an especially heavily populated metropolitan or rural area — it is just average.)

For a number of years, Mr. LaVenture and his charming wife "Lil" have worked incessantly with the skaters with great success. They brought pro teachers to Fitchburg and for the past several seasons Emily Melville taught on a part-time basis.

Late this spring, to cap off a most successful season, the club presented a two-night show for the benefit of their competitors travel fund.

(Continued on page 18)

Gertrude Pichette, Silver Dance Medalist, 1950 Nov. Ladies Figures in Mass., three times second place winner in the U.S. and American Junior Skate Dancing.

Test Medalists in the cast with Miss Melville

James Holland, Ruth Clunan, Roger Forten, Gertrude Pichette and Bob LaVenture

EVERYONE CAN TAKE REVISED TESTS

Great interest in the RSROA Revised Proficiency Tests by all skaters has revealed plans to permit all skaters to retake lower grade tests than that which they now hold. This re-take will not be compulsory. It will be strictly optional — at the skater's own demand.

The awards are being slightly changed, too. Successful candidates for the new tests will receive the new awards while those passing the old tests (before January 1) will receive the standard award as given in the past.

All of the new awards will carry an inscription on the reverse side — "RSROA REVISED TEST."

Should the skater not wish to re-take the new tests, he may continue thru the new series beyond those tests which he now holds. No criticism will be made of this type of decision.

Only the final preparation by the judges remains in most areas. It must be clearly stated that no judge is to officiate in these new tests until he is satisfied that he is ready to do so — and approved by his panel officers plus the panel advisor.

The new speed skating tests are already available to all registered skaters. The speed skating judges need only to observe the new schedules and tests may be held at once.

It is hoped that this plan for liberalized testing will meet prompt approval of all.

TEST AWARDS AT FITCHBURG

(Continued from page 17)

Carefully planned, it attracted many persons from as far away as Boston (and Miss Melville points out that Bostonians seldom travel very far to WITNESS ROLLER SKATING!).

But thru the intense program set up by Mr. LaVenture and Miss Melville, this show had very fine publicity in all fields and was attended by capacity crowds. The radio programs were especially useful since they took place every day for a full week before the show opened.

In general, roller skating has suffered in the past in New England due to much unfavorable publicity — and many unfortunate situations. But with attention being paid to this type of high grade "recital" by skaters only success will be the eventuality.

To close the show, test awards were presented to a large number of skaters by Mr. LaVenture, who spoke about the entire RSROA program for the benefit of those present. We sincerely hope that this type of "institutional publicity" will come to be the general rule in roller skating rinks everywhere. The entire sport will benefit vastly — the skaters most of all.

DEARBORN (MICH.) CLUBS

The Dance and Figure Clubs of Rouge Park Rollerdrome, Dearborn, Michigan, have grown so fast in the past year that the Junior Club has had to be divided into two groups and we are now considering another one. Each group has 50 or more members. Group One meets every Saturday from 12:00 to 2:00 p.m. and Group Two meets Saturday, 4:30 to 6:30 p.m. The Senior Club meets Sunday, 6:00 to 8:00 p.m.

We also have a Speed Club that meets every Friday night after session. The Speed Club finished in the 1950 State Meet with seven first places, one second, and two thirds.

Barbara Paulson, James Williams, Bob Tennant, Teddy Kozlik, Jerry Gohs, Richard Schmidt, Dorothy Van Damme, and Ray Schmidt (not present for picture were Patricia Sullivan, Richard Flowery, Richard Paulson, Darline Pilon, Don Glover, Carolyn Borth.)

A chap down in Urbana, Ohio, has "invented" a most novel "new" idea for roller skating — and to show just how dizzy this government of ours is — the "idea" is now patented. The invention is LIGHTS FOR ROLLER SKATES! We are positively amazed since the editor can remember the "hot shots" around Chicago using this idea on "moonlight skates" some THIRTY years ago. Certainly there can be no fact to the supposition that an idea becomes public property if it is used without restraint for seven years. Look around, skaters — maybe someone can "nail down" the unique idea of fastening skates to boots!

"CLESCO" PRECISION WHEEL SETS

Another reason

CLEVELAND'S

Continue to Lead!

**The First Precision Bearing
Made Especially for Skating**

*Manufactured expressly for CLEVELAND
by the largest bearing company in the world*

- This special bearing has a built-in spacer. Hole size is 9/32" which will fit any skate without changing axles.
- Now you can convert your ball bearing skates into Precisions at a much lower cost.
- See your favorite rink operator for the new CLESCO Precision bearing wheel sets.

The CLEVELAND SKATE CO., Inc.

Manufacturers of "Gloria Nord" Roller Rink Skates

5201 DENISON AVE. CLEVELAND 2, OHIO

Going way back to last winter, the skaters at the Long Beach Skating Palace (California) did a nice show and were happy to report their great success. However, Pro Milton May says that the photos were tied up for months due to their interest being turned toward their first championships venture. The photos came in too late for inclusion in the June and Summer editions but we want you to see what nice work they are doing in the west. (L. to R.) Dick Biles and Marilyn Gormley; Patricia Chemnitzner and Charles Sahli; their "Farm Number" from the show, skaters turned out the props and wheelbarrows; Dolores McHenry.

The blind are roller skating. This is one class group of five, composed of blind boys and girls who have been taught to skate by Sam Finkelstein (the skating newsboy and editor of the International Roller Skating Guide). Sammy has worked hard to help the blind and has taught five hundred groups of the blind during the past three years. He has raised funds and helped to raise others to obtain skates and equipment for these groups. Now most of the "regulars" have their own skates and shoes. Also in the presentation of this group was "Big Joe," disc jockey from WHOM and who worked closely with Sam to get the funds needed. Gloria McCarthy and Bob Cawley, RSROA Champs, performed exhibitions at the skate presentation at the N. Y. Association for the Blind. This is a most creditable public service and we congratulate Sam Finkelstein and his friends upon the success of the work.

Skating for the whole family! John P. Rodger of Decatur, Illinois, is one of the very intimate group of "pioneers" in skating advancement in that part of the country and Mr. Rodger has, thru his association with roller skating, brought his own family and many others into the sport. Most unusual was the entry of his own family in the 1950 championships. John, with his partner Eloise Newland, entered and placed third in the Illinois Senior Dance; daughter Joanne Rodger, skating with Dan Gideon, placed second in Novice Dance; son Bill Rodger, with partner Mary K. Williamson, placed second in Intermediate Dance. Herb Fleckstein, standing next to Joanne, was runner-up to Dan in Intermediate Men's Free Skating. And this group also forms the backbone of Panel 99 at the Regal Roller Rink in Decatur, Ill., which club they also represent. (Man! When we think of the possibility that this raises now if they can ring in a few in-laws, cousins and grand children!—There goes the whole Illinois meet!)

GEORGE F. BRETT

Rouge Park Rollerdrone

21655 W. Warren Ave.

DEARBORN, MICH.

The "Diaper Division" was new in California this year and is the first time used. It was limited to juveniles under seven years, and the contestants skated a Free Style routine. It might be mentioned, as might be expected, no other performance throughout the entire three-day meet received the applause as did the "Diaper" contestants during their routine.

Back Row: Elizabeth Levi, Caddy; John Rogers, Judge from Decatur, Ill.; Patricia Campbell, Caddy; Chester Poremba, Judge from Denver, Shirley Ross, Caddy; and Wm. McMillan, Judge from Denver.

Front Row: Elaine Leontini, Pittsburg, Calif.; Donna Hudgens, Marysville, Calif.; Christine Seaburn, Long Beach, Calif.; and Patricia Young, Richmond, Calif.

Skating News acknowledges a correction of the name of a successful test candidate in the May 1950 edition. It should be Beverly Bowersock (not Bowerstick). We're sorry.

They're not champs yet. Give them a little time please! Little Gayle Hunter looks as though she likes the idea while Richie Ringeisen is kinda pensive about the whole thing. Could be that his "pop," Elmer Ringeisen has been pushing the instruction too hard? Gayle and Richie are two of the younger set who are skating regularly at Skateland at the Beach, San Francisco. Elmer, of course, is the pro at Skateland and Gayle's folks are skaters, too. This new generation of roller skaters is really starting young . . . and more and more of the skaters of ten and twenty years ago are introducing their families to the sport these days.

Phil Reed, recording organist, is now playing at Hillside Rollerdom, Richmond Hill, N. Y., having taken over there September 26.

The skaters from Rainbow Lake Rollerdom in Memphis, Tenn., sent a nice team of qualified winners to the 1950 American Championships in Denver. Here are Charles Holste, Buddy Cole, Daphne McGavie, John Coll, Joe Williams, (front) Jack Johnson, Peggy McCarver, Barbara Reed, George McCarver. Real competitive spirit has prevailed at Memphis during the past few years and sooner or later they are going to have some real top-notchers in the "swim." John Coll has recently turned pro to take over the teaching duties at Rainbow Lake Rollerdom.

Dorothy Ratz, of the Hillside Rollerdom in Richmond Hill, New York, was the first entry from that rink to reach RSROA American Championships in nine years. Last entries to go to the top ended with the title and were George and Gladys Werner. Eddie O'Neill has handled instruction at Hillside during the past season and now looks ahead to some real success in competitors. Needless to say, Messrs. Negri are happy and the skaters are tickled pink.

Skate Dance Shortcuts

Fine instruction in Skate Dancing. Continued and complete instruction. One to be kept on hand and used from day to day by all skate dancers. (Rawson)

Only \$1.00 plus 5c postage—\$1.05

Oh, sister! Where's your thumb? This young lady became so engrossed in the activities on the skating floor at Madison Square Garden last spring in the big New York Daily News Roller Skating Carnival that she did some reverting to "natural expression."

★

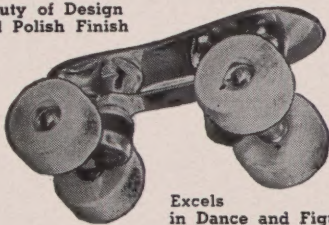

Ever see a father and son shadow pairs number? Well, here is one that "stopped the show" at the Long Beach Skating Palace last year. Milton May, who coached the skaters neglected to let us know who they were, however—but it's a swell idea.

AMATEUR CARD SALES ZOOM

With the advent of the new method of securing RSROA Amateur Cards, the sales of this registration has gone far above expectations during the past ten weeks. RSROA rinks have already reached 10,000 cards this season and that is thousands above the "norm" for this time of the season.

Best indication of the appeal is the letters of approval from skaters, pros and operators alike. The method of skaters receiving their cards directly at their home rinks has met immediate response.

Skaters can now receive their amateur cards at their home RSROA rinks. There need be only the delay in filing the application. Of course the whole filing of the card depends upon the eventual review and processing at the RSROA Office but the skater has an immediate temporary clearance that takes care of tests and local contests.

We suggest that all amateur skaters secure their cards this season without further delay. The easiest and best way to get this information is to ask the pro or the manager at your RSROA-Member Rink now.

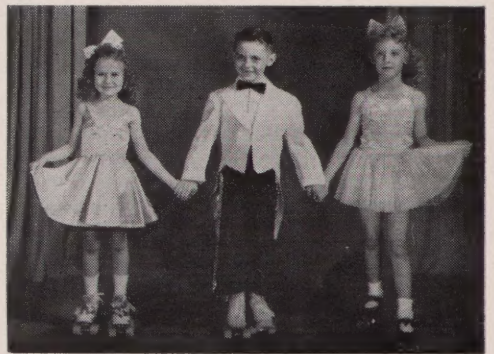

Elizabeth Williams of Lebanon, Mo., was crowned as their skating queen at the Lebanon Roller Rink on last May 10 at a gala celebration. Hoyt Perry of the Doling Park Rink in Springfield took part in the ceremony while many of the Doling skaters performed for the crowds. Mrs. Wanda Young, manager of the Lebanon Rink, is at left.

One of the cars going to Denver this summer which carried banners identifying the riders as roller skaters—Mr. and Mrs. C. E. Butler and Ronald Butler headed to the mile-high city from the Seattle section with the car all decked out as shown here. There were many, many cars and busses which arrived with banners and all contributed toward the big job of publicizing the meet. Ronald, by the way, wound up with two second places—Juvenile Boys Free Skating and Juvenile Pairs with Carole Pattison.

Chas. B. Minnich, who is publicity director for the Garden Spot Figure and Dance Skating Club at the Rocky Springs Roller Rink in Lancaster, Pa., has been bursting his seams with pride since son Bobby (10) placed as champion in Juvenile Dance for Pennsylvania with his partner, Beverly Ellwein (10).

Three youngsters (all 6 years old) at the Lebanon Roller Rink, Lebanon, Mo., skated on the "Queen" program there last May. They are Edwina Henderson, Richard Young and Kathy Brummell.

Springfield's Moonlight Garden Skaters Lead State in Tests Passed

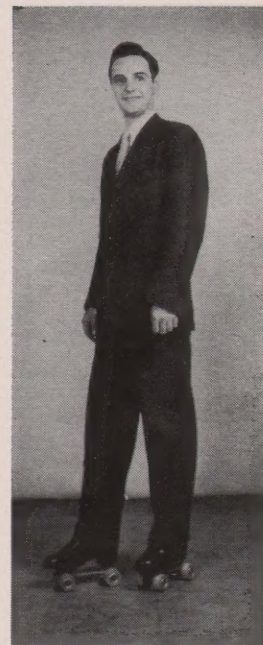

Moonlight Garden (Springfield, Ill.) winners in the 1950 Illinois Championships were James King, Beverly Tengler, Eva McCleary, 4, Wilbur Cox and Mary Margaret Smith. The other illustration shows 41 more successful skaters in passing tests at the Moonlight Gardens. At present this rink has piled up the largest number of passed tests of any Illinois rink and according to the Dexheimers (both Sr. and Jr.) they intend going right on leading the state. The Moonlight Garden, located on Highway 66 at the edge of Springfield has enjoyed phenomenal attendance for all events — probably due to the good, personal management of the Dexheimers.

★

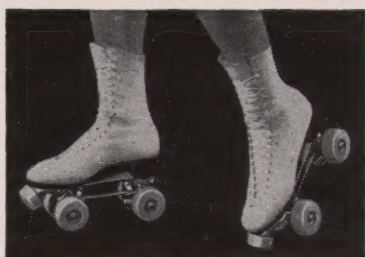

Jack Kennett has served his "probationary days" as a professional now that the Gem Roller Rink in Dubuque, Iowa, has opened for the new season. Jack turned pro last winter and has been teaching a full roster of classes at the Gem. The interest in this Iowa town runs high. Skaters have made very notable progress while enjoying the social pleasantries afforded by this fine rink. Trips are held once each month to various other rinks within easy driving range. Upon writing, Jack said that 75 had planned to be along on the next skating tour.

Tests, too, have come in for some real attention lately. Just check the tests passed sections of Skating News to see what these "cornhuskers" have been up to.

Kennett was a competitive amateur for five years in California and later in Illinois with some success and has "silver" status in his dance and figure tests (what Jack, no speed?).

Wow!
TOE STOPS
with "Ice Rake Traction"
Made by the DOUGLASS-SNYDER COMPANY

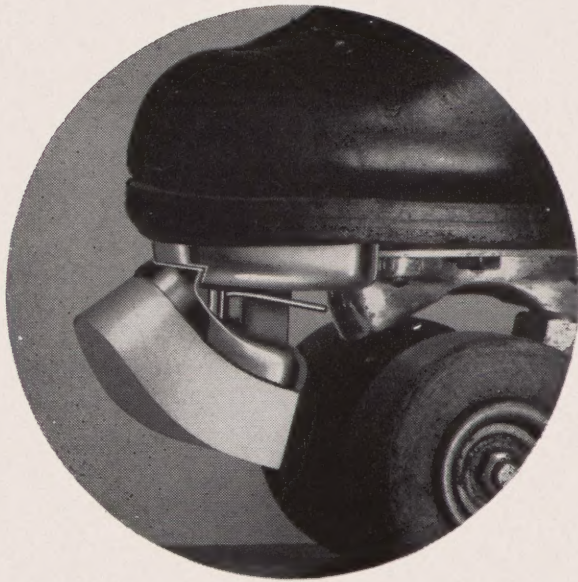

These Toe Stops are made with the same precision and care as the Famous Douglass-Snyder Custom Built Skates. The base has the best angle and better placement for greater lift, and are made of light, durable aluminum alloy. The stop itself is of tested, high quality, non-skid rubber made especially for our stops. They give you that "Ice Rake Traction." Each set comes complete . . . with easy mounting instructions enclosed.
